EOS Aroma Tray

for EOS 34.G HD and Goliath HD sauna heaters

Innovative accessories for more variety and stimulating bathing sessions in your sauna.

Herb aroma tray made of high grade stainless steel. Very quick and simple installation. The herb tray is attached to the two side parts of the rock store above the sauna heater.

Add enough water to the tub. Herb or fruit slices (e.g. lemon or orange) can then be placed on top.

For a completely relaxed sauna experience!

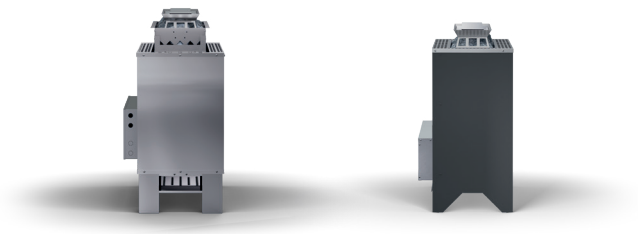

Application example

Notice:

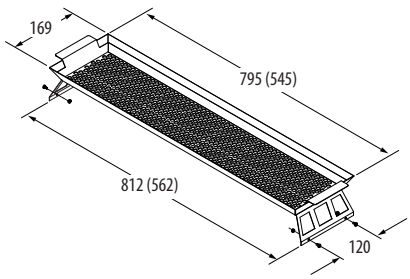

- ✓ Fill the tub with enough water when it is cold.
- ✓ Clean the tub at regular intervals. Residues of flavoring substances can dry out and possibly become resinous.
- ✓ You can remove the inner bowl with the strainer for cleaning.
- ✓ Use suitable cleaning supplies!
- ✓ Make sure that herbs or other flavoring substances are not left dry in the tub. These can possibly become inflamed. Risk of fire!
- ✓ Do not use alcohol or undiluted infusions or aroma concentrates!
